APPENDIX 1

Week 1

DM/22/1055 – 26 Ashenground Road

Ashenground

Proposed hardstanding area to park 2 cars and associated landscaping.

Following its previous comments (submitted on 18/05/2022), the Town Council notes **a)** the representations from neighbours and **b)** the consultation response from West Sussex County Council Highways, which outlines the recommended conditions required for access and the car parking space, and includes an informative note in respect of the vehicle crossover. The Town Council argues that this 'informative' should be made a further condition of any planning permission granted, since construction of the crossover involves works on the public highway.

The Town Council has additional concerns about the landscaping work relating to the hedges on both boundaries in terms of the potential negative effect upon biodiversity, and aggravated drainage from the soil removal between nos 26 and 24 Ashenground Road. The Town Council would also like Mid Sussex District Council's Tree Officer to attend in order to ensure that the removal and replacement of the horse chestnut is conditioned with a suitable replacement.

The Town Council wishes to point out that part of the land appears to be owned by West Sussex County Council (WSCC). Before considering planning permission, Mid Sussex District Council should ensure that permission has been given by the landowner (WSCC) to the applicant.

DM/22/3708 – NCP Ltd, Harlands Road Car Park, Harlands Road**Lucastes**

Modification of Section 106 Agreement relating to DM/17/2384 to secure three First Homes units instead of three shared ownership units.

The Town Council notes the correspondence between Mid Sussex District Council's Senior Planning Officer and the applicant's agent and is disappointed with the outcome. However, it accepts the compromise, subject to 'a Viability Review (in accordance with the Development Viability Supplementary Planning Document) on the sale or letting of 75% of the units, when accurate information about build costs and sales values will be able to be provided. This review will enable an assessment to be carried out as to whether or not additional value has been generated since the current viability assessment was undertaken, as a result of a change in the Gross Development Value or the Build Costs or a combination of the two, which will allow a further contribution to be paid towards the provision of off-site affordable housing'.
